

“Since we started using Calf-Master, I’m amazed at how quickly all my calves have improved during transition.”

Debbie Crothers

Underhill Calves, Platte, NY

Confidence for the Transitions Ahead

CALF-MASTER MV[™]

Because Every Calf is Your Future.

Most farms struggle at some point in transitioning animals. For many, it's from individual bunches to group pens where competition, dietary changes, and exposure to pathogens can increase stress and diminish the gains you need them to make.

Calf-Master MV[™] with Bovisect[®] is uniquely formulated with premium nutrients, microencapsulated direct-fed microbials, and targeted enzymes designed exclusively to give calves the boost they need to move forward through transition.
