

When cookie cutter options just won't cut it.

At VitalPet, we provide the benefits of ownership without the burden. You've spent a lifetime building your dream practice. Don't hand it off to just anyone ... certainly not a company bent on changing everything you've created and forcing you into a formula-driven, cookie cutter approach.

Now is the time to learn about custom solutions that respect your independence and entrepreneurial spirit.

5 The VitalPet Five-Point Difference

1. Customized Practice Transition Solutions Based on YOUR Needs

- Unique partnership model
- Joint ownership
- Full buyout
- Flexible options tailored to you

2. Control and Independence

- Partnership versus employment
- Retain local influence on key decisions and drive decisions for the Company
- Practice medicine the way you always have, not by following a manual
- Stay involved to continue your culture and shape your own legacy

3. Highest Quality Medicine

- Exclusive Medical Review Board
- Business support team does not vote
- Decision-making at the local level

4. Investment in the Future

- New equipment and remodels
- Ground-floor national expansion plan

5. Unparalleled Support for Growth

- Comprehensive practice operations management
- Staff training and ongoing career development
- Innovative practice marketing and new client acquisition programs

No matter where you are in your career,

New to Practice

Inspired Entrepreneur

Mid-Career

Mature Planner

VitalPet has a custom solution for you.

I wasn't ready to step away and VitalPet wasn't the type of organization to come in and turn my hospital into another corporate veterinary hospital. It was still going to be a community hospital. It was still going to have the personality and flavor and feel of my hospital.

Dr. Robert Spillers
VitalPet Town & Country Veterinary Hospital

COMMUNITY

One of the best benefits is VitalPet's profit sharing, which is unheard of in veterinary medicine. As a Junior Veterinary Partner I was given the opportunity to become part owner with zero buy in. With VitalPet, I have a great work-life balance and I have a freedom that I have never had before.

Dr. Renee Bullard
VitalPet Preston Forest Animal Hospital

We wanted to retain the culture we had established. And we wanted to ensure that our veterinarians had a say in what was being done. We have kept the culture of a family-oriented community practice. With our expansion, VitalPet has provided new equipment, including an updated ultrasound machine, digital X-ray, and a CAT scan, which is unique for a private veterinary practice.

Dr. James Kelly
VitalPet Kings Crossing Animal Hospital

EMPOWERING

One of my classmates did go to work for one of the very large corporate groups and it's very cookbook. You have to practice veterinary medicine the way they want you to practice veterinary medicine. At VitalPet you're allowed to practice veterinary medicine the way you want to. A cookbook doesn't work. That's not veterinary medicine. That's not medicine, period.

Dr. Sheila Gilbert
VitalPet Eastex Veterinary Clinic

CULTURE

VitalPet is unique in that they don't get involved in the medicine at all; they're just there to back you up and help you get things done efficiently. VitalPet handles all of the things I really don't enjoy.

Dr. David Fernandez
VitalPet Stone Oak Veterinary Clinic

The future of your practice. On your terms.
